

Offering clean and functional toilet facilities is important in schools for many reasons, but choosing the correct size of toilet cubicles for school children is also essential to enable passive adult supervision for younger children, and privacy from other pupils.

We work closely with a number of schools to ensure the appropriate facilities are provided for children of all ages and provide a range of school toilet cubicles that will meet your organisation's individual needs.

To find out more about our bespoke children's toilet cubicles and pricing information, contact our friendly team on **0800 030 6041** or email info@spectruminteriors.co.uk.
