Efficiency. Flexibility. Quality.

WASHROOM COLLECTION

Welcome to the Spectrum Interiors washroom brochure. We have provided commercial washroom solutions to the UK since 2002. Our experience, products and installations serve every sector. We understand how to diversify, achieving the best washroom projects in the UK.

**Why Choose Spectrum Interiors**

- We manufacture in-house at our Chester site in the UK.
- We give the best advice and service to our clients from our skilled team of Production Managers, Estimators, Sales Advisors and Interior Designer.
- Dissimilar to most of our competitors, we can serve you through every stage of your washroom transformation.

**Architects & Specifiers**

- CAD & BIM information is available to be downloaded now from our website for all our products.
- We supply products that are superior to our competitors. Manufacturing bespoke specifications is easy to do in our UK factory.
- Our team are experienced in making your project stand out; if your project has a strong design theme we can help you to achieve this.

**For Contractors and Fitters**

- All our products are easy to install and some ranges need no pre-drilling at all.
- Our team will advise the correct materials and assist with design.
- We offer some of the fastest lead times in the UK washroom business.

**For the End User**

- Choose from our prestigious or budget ranges but always receive the best quality products from Spectrum Interiors.
- Our team are always available to assist end users with design and installation.
- We offer a site survey for your project to give assurance and advice regarding materials and measurements.

**Spectrum Interiors Installation Team**

Spectrum Interiors have a skilled team of installers. With their experience, washrooms are completed from start to finish with accuracy and speed. Our clients vow that our installation team save them time and money on their projects.

# SERPENTINE

“Serpentine’s quality and elegance gains instant respect from everyone it serves, giving a five-star status to all projects.”

Sleek and contemporary for prestigious projects

Strong, with substantial ironmongery suitable for heavy usage

A number of finishes are available for the glass; including back painting, vinyl and frosting

Rimless 10mm chemical resistant, easy-clean toughened glass

All perforations are engineered in-house ensuring precision and quick assembly

No maintenance is needed

CUBICLES

## STATUS

“Status’ sleek design offers excellent privacy due to its flush-facing design with no gaps.”

---

44mm thick panels in a range of quality finishes

---

Optimal privacy

---

Sleek contemporary flush-faced system

---

Range of ironmongery options available

---

High-end design for prestigious projects

## SISKIN

“The locking mechanism is designed to fit within the fabric of the pilaster, so that when the door is closed it creates a flat surface to the front and interior of the cubicle.”

---

Incredibly strong, solid flush-faced system

---

Extremely durable, with a 32mm solid framework

---

Partially adjustable on site

---

Fully framed in aluminium with powder coated options

---

Standard and bespoke sized doors available

---

Long-lasting integral mortice lock

# SORRENTO

“Sorrento is the installers ‘first choice’ as there’s no need for pre-drilling, which helps to prevent unsightly mistakes when installing.”

Elegant design with oval pilasters

Multiple choice of ironmongery available

Interchangeable with all materials; even glass and MFC

No pre-drilling, so no unwanted holes

Fully adjustable to any width or height

Quick lead times & easy installation

Rising Butt Hinge

Open Hinge

Rounded Indicator

Coat Hook

# SIGNATURE

“Narrow pilasters increase the door width; which can be useful for small spaces and situations where you may be carrying luggage or assisting young children.”

Unique system available only from Spectrum Interiors

Quick lead times & easy installation

Sleek, square edged aluminium pilaster

Narrow pilasters perfect for small places

Full height pilasters for a seamless finish

Finish the look with multiple choices of ironmongery

# SOLO

“Solo proves that washroom design can be vibrant and engaging for children of all ages.”

Perfect for children

Available in heights to suit any age

Bespoke, decoratively shaped doors

Any creative combination of laminate and colour

Allows adult supervision

Available in quality, cost effective materials which are chosen with schools in mind

# SALVINO

“Salvino pilasters and doors can be made to any width, to suit unusual room sizes or to fit around existing features.”

Entirely manufactured by Spectrum Interiors in the UK

Fully adjustable pilasters

Versatile material options to cater to all budgets

Exceptional lead times & easy installation

Childrens' heights available

Multiple choice of ironmongery available

CUBICLES

## SOLETTE

Access panels can be hinged to provide lockable storage

Childrens' heights available

Minimal lead times

Made bespoke to your requirements

Pre-assembled

## SANDACE

Invisible jointing

Ultra hygienic

Massive design flexibility

Very low maintenance

A bin can be integrated into the vanity unit by moulding a hole into the top

Typical Sandace Unit with Moulded Basins

Sandace System with Top Mounted Washbasins and Waterfall Taps

## SAFFINA

Minimal design with a continuous edge

Bespoke to your requirements

Minimal lead times

Pre-assembled

Children's heights available

Light pelmet options are available for all vanity unit styles

## CANTILEVER

Corian can be moulded to any shape or size

Freestanding appearance

The space created below can be utilised for storage

Ultra hygienic

## BESPOKE ITEMS

We specialise in making bespoke items to suit any washroom. This can be through either our understanding of which systems to use in even the most difficult of spaces or creating something entirely new to suit your workplace. Using our wide range of products and wealth of knowledge, the options are endless and we work with you to realise your ideas. Below are just a few additions to our standard range.

PRINTED DOORS AND PANELS

If you're interested in customising the design to suit your company branding then printed doors and panels are the easiest way to transform your washroom into something truly unique. We can provide high resolution images to suit a theme and create a positive environment.

BABY CHANGING UNIT

We design and make our products from scratch, which ensures a level of continuity in the design. In this example we have applied the style of the vanity unit to make a matching bespoke baby changing unit in the next room.

ACCESSIBLE TOILET

Accessibility is something that should be considered at the design stage rather than latterly. Our 'Doc M' pack provides enough room to comfortably manoeuvre within the space and has a smart finish to integrate with the rest of the design.

## IPS SYSTEMS

More than just a way to conceal pipework, IPS panels can be a stylish and hygienic addition to your washroom. Our systems are adaptable to toilets, urinals and basins and are sometimes just used as blank panels, which coordinate with the cubicles and vanity unit to create a cohesive design, which feels minimal and modern.

SPECTRAWALL

Spectrawall is our standard IPS range to refresh and elevate any washroom to a high specification. The panels are edged or radiused and polished before being fixed to the frames using concealed 'push-fit/lift-off' fixing clips.

MEDIWALL

Our Mediwall system is an NHS-approved system which not only helps in the battle against infection, but also provides functionality and speed - vital for the medical or hospital environment. Lockable and hinged fixings are available and the panels can be made to an anti-ligature specification.

# LOCKERS AND SHOWERS

Alton Towers - Lockers and Washrooms

Alton Towers had 1.98 million visitors last year and needed a vast amount of lockers in a high quality specification to cope with the daily traffic. These were printed to suit the theme and available in various sizes to increase capacity.

We installed these showers at Demon Tweaks along with their new washrooms. Both are finished to a high standard with a tasteful, minimal decor using our Siskin range.

We have found that providing showers gives employees the option of exercising in their breaks or on their way to work; to encourage a healthy work/life balance and a sense of pride in their workplace.

# MATERIALS

1. Protective overlay for decorative prints
2. Decorative printed paper with melamine resin on two faces
3. Dense layers of Kraft paper bonded with phenolic resin

## SOLID GRADE LAMINATE - SGL

Two decorative sides; edges are machined to smooth radius, exposing the black core.

Dense layers of kraft paper are bonded together with resin under high pressure and temperature to make an extremely durable product. Ideal for high traffic washrooms and changing rooms.

Waterproof for use in showers and high-humidity environments.

1. Layers of Kraft paper combined with thermosetting resin on two faces
2. Moisture resistant chipboard core

## HIGH PRESSURE LAMINATE - HPL

Decorative laminate is bonded onto both sides with a 1mm PVC lipping to produce a square edge or smooth post formed finish.

The high pressure laminate is made with 65% kraft paper and 35% thermosetting resin and then bonded onto the chipboard to become a very durable composite.

Suitable for dry areas with frequent use.

1. Printed papers with a melamine resin on both sides
2. Chipboard core

## MELAMINE FACED CHIPBOARD - MFC

The decorative melamine surface is applied to two faces, with a PVC lipping to all other sides available in 1mm or 2mm.

The decorative surface is applied to the chipboard using high pressure and temperature.

Applicable for dry areas where a light weight, cost-effective solution is needed.

MATERIAL AVAILABILITY	Serpentine	Status	Siskin	Sorrento	Signature	Solo	Salvino	Solette	Sandace	Saffna	Cantilever	Recommended for areas with humidity of:	Life expectancy	Budget

Toughened Glass	✓			✓								Suitable for all	10 years plus	££££
Corian									✓		✓	Suitable for all	10 years plus	£££££

We pride ourselves on delivering washrooms on time and to exacting standards across many sectors. These are just some of the acclaimed clients we have worked for...

Throughout the works, the office staff were always helpful. We are pleased with the finished product fitted to a high standard. Thanks to all of the team at Spectrum for your patience and expertise!

"Very prompt and efficient service from initial enquiry to final install and commission. The survey and installation was carried out professionally to a high standard in an occupied work place with minimal disruption. I was very happy with the quality of the cubicles and highly recommend Spectrum Interiors."

"The refurbishment of the first floor male toilets has been installed to a very high standard and from start to finish the team has worked well with out staff, with no complaints. Well done."
